

Where Did Your Money Go?

Federal Budget 101

Tuesday, April 26, 7:00 - 8:30 pm

At the Waysmeet Center, 15 Mill Rd, Durham NH

This workshop looks at how the Federal Budget works and how to effectively advocate for policies we care about.

We'll talk about:

- How federal dollars are spent
- Why growing deficits can be a problem
- Why spending cuts alone are not the answer
- The link between progressive tax policies and issues like health care reform, education and other programs
- Cutting wasteful military spending and ending wars

It might sound daunting, but don't worry –
we've boiled this workshop down into easy to understand concepts and information about revenue sources, expenses, and how you can advocate for your budget priorities.

Free and open to the public
